

QMATIC CERTIFIED HARDWARE

CHECK-IN KIOSKS

Optimize the customer flow, reduce queues and wait times, and create the perfect customer experience with check-in kiosks certified by Qmatic.

Qmatic's certified check-in kiosks offer a range of features, from self check-in to queue management, that helps organizations streamline their operations and reduce customer wait times and queues in their locations.

With powerful, high-quality check-in kiosks, organizations can ease pressure on frontline employees while creating a seamless check-in experience for customers as soon as they arrive. Customers can quickly get in line for different services, check-in for appointments, and identify themselves before their visit. This results in an improved waiting experience with smoother customer flows and a calm, welcoming service environment.

Our lineup of certified check-in kiosks is highly reliable and built to withstand continuous public use, making them suitable for various environments, including public offices, retail stores, financial institutions, and hospitals. The check-in kiosks are designed with no spinning drives and no battery, and the touchscreens undergo rigorous reliability testing (over 20 tests) to deliver an MTBF (Mean Time Between Failures) of 50,000 hours.

Various accessories are available to connect to the edge of the screen to create a comprehensive end-to-end solution that supports your organization's needs. And with versatile mounting options, the check-in kiosks can be placed on an aisle, counter, or tight wall space or even be integrated into a freestanding floor mount, which makes it easy to find the perfect check-in kiosk for any space.

FEATURES

- **Commercial-grade performance**
Designed for continuous public use and built to withstand high-traffic environments, ensuring durability and reliability.
- **Multiple accessories**
Customizable with various peripherals, such as a barcode/QR code scanner, combo reader, assist button and more.
- **Multilingual support**
Empower customers to interact with the check-in kiosk in their preferred language.
- **Printer and printerless**
Let customers check in for an appointment or join the queue with or without a printed ticket.
- **Versatile mounting options**
Choose from wall, counter, or floor-standing models to suit your specific installation requirements.
- **Different screen sizes**
Available in two screen sizes, 10- and 22-inch, with high-performance computing and sleek edge-to-edge glass.

Check-in Kiosk 22"

- ✓ Commercial-grade
- ✓ Low operation and maintenance costs
- ✓ Large display for an effortless check-in and queuing experience
- ✓ Supports various peripherals and accessories
- ✓ Multiple mounting options

Check-in Kiosk 22" is designed to help you offer the ultimate solution for your customers to check in for an appointment and get in line for different services upon arrival.

The advanced, high-quality check-in kiosk is equipped with a 22-inch commercial-grade touchscreen display with TouchPro® PCAP technology, enabling multi-touch responses with up to 10 touches simultaneously.

With support for various accessories, including barcode/QR code scanner, combo reader (MSR/NFC), and assist button, the possibilities are opened up to make the customer journey more accessible and effortless.

The Check-in Kiosk 22" is our most versatile kiosk and offers flexible mounting options depending on your organization's needs. Choose from floor-standing, countertop, or wall-mounted, as well as single-sided and double-sided, to blend in naturally in all types of service environments. The check-in kiosk can easily be branded with your company logo, text, and colors for visibility by adding a backer board that connects to the back of the stand.

Check-in Kiosk 22" Value

- ✓ Sleek, space-saving stand
- ✓ Commercial-grade
- ✓ Built-in printer
- ✓ Available in portrait or landscape mode
- ✓ Equipped with all the essential features

The Check-in Kiosk 22" Value is a commercial-grade kiosk with a slim design and a built-in printer that brings all the essential features needed to let customers seamlessly check in for an appointment or join a queue.

The check-in kiosk can be mounted in portrait, landscape, and table-top orientation or on a floor stand. The slim and light design makes it fit any space and is perfect for high-traffic public environments like retail, public offices, and hospitals.

The 22-inch PCAP touchscreen offers a fast and sensitive response with commercial-grade reliability. The touchscreen can seamlessly attach a barcode scanner to scan QR codes for appointment check-in and combo reader for identification.

Check-in Kiosk 10"

- ✓ Sleek design, convenient size
- ✓ Commercial-grade
- ✓ Available with floor and tabletop stand
- ✓ Built-in printer
- ✓ Fits into various environments

Check-in Kiosk 10" is a powerful, compact kiosk with a built-in printer and a highly responsive, fast 10-inch touchscreen with commercial-grade reliability.

With its small footprint, you can easily place it in tight spaces in various environments, such as retail, public offices, labs, and pharmacies. The check-in kiosk can be mounted as floor standing or placed on a countertop.

Optional assessories include a barcode scanner that seamlessly attaches to the touchscreen display for appointment check-in and combo reader for identification.

Check-in Kiosk 10" Printerless

- ✓ Ticketless check-in and queueing
- ✓ Commercial-grade
- ✓ Lower environmental impact
- ✓ Ready for continuous public use
- ✓ Small footprint

Check-in Kiosk 10" Printerless is the perfect choice for organizations looking to provide ticketless check-ins and queue entries. The check-in kiosk is equipped with a 10-inch touchscreen with commercial-grade reliability, compatible with a barcode scanner. The touchscreen offers a fast and sensitive response and is mounted on a stable yet ultra-slim pole stand.

The printerless check-in kiosk lets your customers check in upon arrival and join the queue without a printed ticket. Customers can join the line by entering their name, email, and phone number or scanning a QR code. Once their turn is coming up, they can be notified via text/email, waiting area displays or by a staff member. The printerless check-in kiosk adapts well to various environments, such as retail banks, stores, pharmacies, universities, and clinics.

With our printerless check-in kiosk, you can effectively reduce paper waste and lower your environmental impact, making your queueing process more sustainable while reducing associated costs.
